

WANG Rui

Senior Counsel

Areas of Practice

Dr. Rui Wang has solid knowledge background and tremendous rich experience in the fields of molecular biology, cell biology, biochemistry, pharmacy and Chinese medicine. She has rich expertise in patent drafting, prosecution, invalidation and litigation before the Chinese Patent Office and the courts, and frequently advises on freedom-to operate analysis and patentability analysis for many companies.

Dr. Wang has handled dozens of patent invalidation, patent infringement litigation and administrative treatment of patent infringement, and is highly trusted by clients.

Prior to admitting to practice IP law, Dr. Wang worked as a scientist in many significant research projects supported by the National Natural Science Funding of China, and was awarded the National Natural Science Funding of China for young scientists.

Representative Matters
