

WANG Rui

Partner

Areas of Practice

Dr. Rui Wang has solid knowledge background and tremendous rich experience in the fields of molecular biology, cell biology, biochemistry, pharmacy and Chinese medicine. She has rich expertise in patent drafting, prosecution, invalidation and litigation before the Chinese Patent Office and the courts, and frequently advises on freedom-to operate analysis and patentability analysis for many companies. Dr. Wang has handled dozens of patent invalidation, patent infringement litigation and administrative treatment of patent infringement, and is highly trusted by clients. She is particularly good at handling patent cases requiring insightful understanding of complicated technology, which should thanks to her systematic scientific training received as a research scientist prior to practicing IP law.

Representative Matters
